- (2) The proper officer may at any time take an account of any goods entered for warehousing and such account, or, if no such account has been taken, the entry for warehousing shall, subject to any allowable deficiencies, be the basis upon which the duties in respect of such goods shall be ascertained and paid.
- (3) Where any goods entered for warehousing in a bonded warehouse (which are not subsequently entered for the purpose of removal from the warehouse) are not deposited forthwith, or within such time as the proper officer may permit, in the bonded warehouse for which they were entered, the proper officer may cause them to be so deposited at the expense of the licensee of such warehouse and the licensee of such warehouse shall, upon paying such expenses, have a lien on such goods for the cost involved.

Schedule A (Section 111)

Value of imported goods

1. (a) The value of any imported goods shall be taken to be the normal price, that is to say, the price which they would fetch at the time when the duty becomes payable, or in the case of warehoused goods, at the time of their entry for warehousing, on a sale in the open market between a buyer and a seller independent of each other.
- (b) the normal price of any imported goods shall be determined on the following assumptions—
 - (i) that the goods are delivered to the buyer at the port or place of introduction into Malawi;
 - (ii) that the seller bears all costs, charges and expenses incidental to the sale and to the delivery of the goods at the port or place of introduction, which are hence included in the normal price;
 - (iii) that the buyer bears all duties or taxes applicable in Malawi, which are hence not included in the normal price.
2. (a) A sale in the open market between a buyer and a seller independent of each other pre-supposes—
 - (i) that the price is the sole consideration;
 - (ii) that the price is not influenced by any commercial, financial or other relationship, whether by contract or otherwise between the seller or any person associated in business with him and the buyer or any person associated in business with him, other than the relationship created by the sale itself;
 - (iii) that no part of the proceeds of any subsequent resale, other disposal or use of the goods will accrue, either directly or indirectly, to the seller or any person associated in business with him.
- (b) Two persons shall be deemed to be associated in business with one another, if, whether directly or indirectly, either of them has an interest in the business or property of the other or both have a common interest in any business or property or some third person has an interest in the business or property of both of them.
3. When the goods to be valued—
 - (i) are manufactured in accordance with any patented invention or are goods to which any protected design has been applied; or

- (ii) are imported under a foreign trade mark; or
 - (iii) are imported for sale, other disposal or use under a foreign trade mark,
- the normal price shall be determined on the assumption that it includes the value of the right to use the patent, design or trade mark in respect of the goods.
4. For the purposes of paragraph 3, the expression “trade mark” includes a trade name and style, and a trade mark shall be treated as a foreign trade mark if it is the mark of—
- (i) any person by whom the goods to be valued have been grown, produced, manufactured, offered for sale or otherwise dealt with outside Malawi; or
 - (ii) any person associated in business with any person referred to in (i) above; or
 - (iii) any person whose rights in the trade mark are restricted by an agreement with any person referred to in (i) or (ii) above.
5. In order to arrive at the assumed costs, charges and expenses as set out in paragraph 1(b)(ii), the Controller may accept such deduction from the actual cost of the delivery of the goods to any other place in Malawi as he may consider equitable.
6. When the Controller is satisfied that documentary evidence relating to the clearance of goods through a foreign port of arrival in Africa cannot reasonably be expected to be available at the time of duty payment, he may, at the request of the importer, determine the costs, charges and expenses set out in paragraph 1 (b) (ii) and such determination in any particular case shall not be voided if the actual costs, charges and expenses are subsequently discovered to be greater or lesser.

- “transaction value” means the value of export goods within the meaning of subsection (1) of section 114 of this Act.
2. For the purposes of this Schedule, persons shall be deemed to be related only if—
- (a) they are officers or directors of one another's businesses;
 - (b) they are legally recognized partners in business;
 - (c) they are employer and employee;
 - (d) a person directly or indirectly owns, controls or holds five per cent or more of the outstanding voting stock or shares of both of them;

 - (f) both of them are directly or indirectly controlled by a third person;
 - (g) together they directly or indirectly control a third person; or
 - (h) they are members of the same family.
3. Subject to paragraph 7, the value of export goods shall be the transaction value.

4. The transaction value shall be accepted even where the buyer and seller are related, provided that their relationship shall not influence the price.
5. If the value cannot be determined under the paragraphs 1 and 2, the value shall be determined by proceeding sequentially through paragraphs 3 to 5.
6. The value of the export goods shall be based on the transaction value of goods of like kind and quality exported at or about the same time to other buyers in the same destination country of importation or in its absence another destination country of importation adjusted in accordance with paragraph 2.
7. In determining the value of export goods under paragraph 1, the proper officer shall make such adjustments as it appears reasonable to him or her, taking into consideration the relevant factors, including the difference in—
 - (i) the dates of exportation;
 - (ii) commercial levels and quantity levels;
 - (iii) composition, quality and design between the goods to be assessed and the goods with which they are being compared; and
 - (iv) domestic freight and insurance charges depending on the place of exportation.
8. If the value cannot be determined under paragraph 3, it shall be based on a computed value, which shall include the following—
 - (a) cost of production, manufacture or processing of export goods;

 - (c) an amount towards profit.
9.
 - (1) Subject to the provisions of paragraph 2, where the value of the export goods cannot be determined under the provisions of paragraphs 3 and 4, the value shall be determined using reasonable means consistent with the principles and general provisions of this Schedule: Provided that local market price of the export goods may not be the only basis for determining the value of export goods.
 - (2) An exporter shall furnish a declaration relating to the value of export goods in the manner specified in this behalf.
10. When the proper officer has reason to doubt the truth or accuracy of the value declared in relation to any export goods, he or she may ask the exporter of such goods to furnish further information including documents or other evidence and if, after receiving such further information, or in the absence of a response of such exporter, the proper officer still has reasonable doubt about the truth or accuracy of the value so declared, the transaction value shall be deemed to have not been determined in accordance with subparagraph (1) of paragraph 2.
11. At the request of an exporter, the proper officer shall provide the exporter, in writing, the ground for doubting the truth or accuracy of the value declared in relation to the export goods by such exporter and provide a reasonable opportunity of being heard, before taking a final decision under subparagraph (1).
